

Personal Care Our Cornerstone

Jeffrey Danhauer, along with his father, William Edward Jr., are owners of Danhauer Drugs in Owensboro, Kentucky. "It's been a family business for 117 years," says Jeff. "We are a special care giving pharmacy, and personalized service has always been the cornerstone of our business," said Jeff Danhauer. Everyone who works here touches the patient in some way. Someone is always following up with our patients to make sure everything is ok. No one is ever just a number here, they're always a family member to us," says Jeff. And a real person always answers the phone!

Danhauer's patients and customers also benefit from:

- Special Custom Medication Packaging
- Diabetes Management
- Wound Care
- Medical Equipment
- A Complete Department of Respiratory Services, Including Oxygen Supplies, C-pap, Nebulizers, etc.

Ask Us About Our CUSTOM MEDICATION PACKAGING

*No One Is Ever
Just A Number,
They Are Family
To Us.*

"These specialty services are why people in Owensboro and surrounding counties choose us," stated Jeff.

Danhauer Drugs has been offering customized medication packaging for over 22 years. Each medication packet has a date and time printed

on it so there's no confusion what time the medication is needed each day, or even multiple times throughout the day. "Also, if you travel a lot for work or for pleasure, it's a wonderful service for people on the go... and there is absolutely no charge for this specialized service we provide," said Jeff.

After an initial consultation for their custom medication packaging, an individual or caregiver only needs to pick up the packaged medications once a month: with the exception of Owensboro where they deliver free within about a mile of the bypass. "We've received great feedback from over 100 patients on the program." Jeff said.

Danhauer Drugs' staff consists of a team of pharmacists, technicians; caregivers, drivers and also has a registered respiratory therapist on staff, available to meet and answer needs. "We also provide a full in-house billing staff to maximize insurance benefits and reduce "out-of-pocket" expenses for our customers," Jeff said. Danhauer Drugs accepts almost every insurance plan (including Humana and Anthem).
