

# Making a *Difference*

Hancock County Senior Services has had to temporarily change the way we are serving older adults in our community due to the Coronavirus pandemic but they are still "Making a Difference" with the services they offer. "Instead of offering meals and activities inside the senior centers we are offering drive-thru meals, door drop meals (for those that qualify) and take/in home activities for our participants," said Lona Morton, Senior Services Director. We are still providing transportations to those that need help getting to doctor appointments, the pharmacy, and groceries. Hancock County Senior Services strives to try and offer the best quality services possible! You can contact the Hancock County Senior Services at 270-927-8313.
