

◆◆◆◆ FROM THE EDITOR

There's nothing more rewarding than to hear people say, "Thank for the opportunity to be a part of the Regional Senior Living magazine". Positive comments continue to show me this publication is not only valuable, but also validated.

Recent testimonials received are another rewarding factor to charge on. It's wonderful knowing we're helping local businesses thrive! I'd like to thank all the advertisers for their continued support, and those special people who trust in us with their personal interviews.

While our county is in the middle of a pandemic, seniors are hungry for news; and not only related to COVID, but especially during this volatile time, having the most updated information to better prepare their estates, is pertinent. Inside we address these needs in addition to bringing interesting profiles for achieving vitality and health, motivating and capturing readers.

Many thanks for the continued support and readership. If you'd like to share ideas or have questions, you can contact me at: Linda.clarionpublishing@gmail.com

With gratitude,
Linda Dillon
