CITY OF WAYNESVILLE NATURAL GAS SAFETY INFORMATION

Call BEFORE you DIG
1-800-344-7483

MISSOURI ONE-CALL SYSTEM, INC.

Know what's below. Call before you dig.

The City of Waynesville takes Natural Gas safety very seriously. If you smell gas at any time, please follow these guidelines and contact the Utilities Office during business hours at (573)774-5217 or 911 immediately. Please do not wait until later hoping the smell will go away.

What Is A Gas Leak? What Do I Do If I Have One?

Since natural gas is odorless and colorless in its natural form, a distinctive odorant called mercaptan is added to help you detect a gas leak. Mercaptan makes the gas smell like sulfur or 'rotten eggs'.

INSIDE GAS LEAKS

If you smell a faint gas odor near an appliance: Check all pilot lights. If you find a pilot light extinguished, open windows and doors to vent the area and then wait 15 minutes before relighting the pilot light.

IF THE SMELL DOES NOT GO AWAY! CALL THE UTILITY OFFICE AT 774-5217 OR 911

If you smell gas inside your home or business and the smell is a strong persistent natural gas odor, or you hear a hissing or leaking sound:

Leave the building immediately, taking everyone with you (including pets) and leave all doors and windows open behind you.

DO NOT use telephones, cell phones, computers, appliances, elevators or garage door openers.
DO NOT touch electrical outlets, switches or doorbells.
DO NOT smoke or use a lighter or other open flame.
DO NOT re-enter the home to open windows or doors.

OUTDOOR GAS LEAKS

You may be observing signs of an outdoor gas leak if: You hit a gas line while digging or smell a strong gas odor in the air. You see or hear any unusual occurrences such as a high-pitched whistle or hissing sound, blowing dust, dead vegetation in a normally green area, continuous bubbles in an underwater area or ground fires.

CALL THE UTILITY OFFICE at 774-5217 OR 911 IMMEDIATELY

EVACUATE THE AREA AND KEEP UNAUTHORIZED PEOPLE FROM GETTING NEAR THE SITE.

Abandon your car, backhoe or other equipment until the scene is deemed safe by the authorities.

DO NOT use anything that could generate a spark.
DO NOT start up or shut down motor vehicles or electrical equipment.
DO NOT use a telephone or cell phone in or near the area where the signs of the leak were observed.
DO NOT attempt to repair or backfill any damaged or potentially damaged pipeline.

SMELL GAS? Don't Wait Call NOW!
