

Greenfield FFA on the grow

This year Greenfield FFA chapter has been a time of growth, not only with our members but also with our facilities.

Greenfield FFA has had multiple accomplishments this past year. This includes our solid officer team: President Sherri Tyson, Vice President Hailey Jones, Secretary Natalie Jones, Treasurer Tripp Smithson, Reporter Garrett Garner, and Sentinel Carter Finch.

“Our office team has stepped up their leadership and has shown Weakley County what it means to be a part of FFA,” said Mathew Humphrey, FFA advisor.

This year we started out our annual summer trip at Doyle, Tennessee to attend Camp Clements for a week. This camp’s purpose is to build leadership skills and

AT CONVENTION — Natalie Jones, Matthew Humphrey and Hailey Jones

teach more about agriculture. While at the camp we met so many people and had lots of fun. Sherri Tyson, Hailey Jones, Natalie Jones, Ana Whitcomb, Trevor Birdwell, Lucas Ricketts and Michael Isbell attended the camp in June.

Two of our officers, Natalie Jones and Hailey Jones spent a week at National

Convention. National Convention is in Indianapolis, Indiana. While we were there we saw thousands of blue jackets. We liked how there were so many people from all over the country that shared the same values and concerns for tomorrow’s agriculture.

GLEASON FFA FUTURE PLANS — Gleason’s Kolton Crochet, along with fellow Ag students, hears details at the Tennessee Tractor career development workshop in Martin. Future plans for Gleason include an Ag Mechanics career development event and State FFA convention in March.

We need your ‘green’ for our greenhouse

Our FFA program is striving to build a greenhouse for our school that is a Gothic style 24X48. It will be furnished with a complete hydroponic system, aeroponic system, and room to grow plants in the traditional way as well.

Great expansions are taking place at our little school and if you would like to partner with some of our existing sponsors, any help is much appreciated. We have four levels of donors: Rising Sun Level, \$1,000+; Plow Level, \$999 - \$500; Ear of Corn Level \$499 - \$250; and the Owl Level,

\$249 - \$1.

“We are proud to have these businesses to be the first to jump in on this project in our community. The most attractive part of this project is that it will be accessible to every grade level here at Greenfield, which I hope will build interest in younger students to participate in FFA once they reach high school.” Says Matthew Humphrey, Greenfield Ag Teacher and FFA Advisor.

Rising Sun – City of Greenfield, Greenfield Banking Company
Plow – Akin & Porter,

Williams Funeral Home
Ear of Corn – Greenfield Monuments, Ervin’s Feed and Grain (Obion)
Owl – Special Occasions, Robinson & Belew, Huffstetler & Sons Seed

You can contact the Greenfield School, any Greenfield FFA officer, or Mr. Humphrey if you are interested in supporting this venture. Our target goal is \$12,500 which we have acquired approximately \$4,000 of that goal.
