About this section
The Messenger’s graduation section looks different this year. When COVID-19 closed the schools, The Messenger’s traditional senior class photos could not be made. So instead of asking students to provide their college plans, answer questions about their high school days or to give advice to the incoming freshmen class, The Messenger asked the students who make up the Class of 2020 at Obion County Central, Union City and South Fulton to provide a photo, along with their city of address and their parents’ names. And while we know nothing can make up for the memories which were not able to be made — such as the senior walks, feeling the pride which swells up as they knowingly walk down the hall on their last day of secondary education and dancing at prom — The Messenger staff hopes this section can make up for even a small part of it all. Congratulations and good luck on whatever the future holds for you.
