**NOTICE OF LOCATION AND DESIGN APPROVAL**  
**P. I. 0013828**  
**SEMINOLE COUNTY**

Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project. The date of location and design approval is: April 27, 2020

The project proposes to replace the existing bridge on SR 45 over Dry Creek in GMD 1431 and Land District 27, located approximately three miles north of US 84 in Iron City, Georgia. The proposed roadway and bridge will have two 12-foot lanes with 6-foot rural shoulders. The total length of the project is approximately 1000 feet. This project will require an off-site detour. The road will be closed for approximately nine months and traffic will be rerouted using State Routes and marked with detour signs. The preferred route for the official detour would be to use SR 91 and SR 38 to the west and SR 38 and SR 310 to the east. Drawings or maps or plats of the proposed project, as approved, are on file and are available for public inspection at the Georgia Department of Transportation: Brad Cleveland, Area Manager
