

Priddy ISD

Priddy ISD is one of the best kept secrets in the region. With our small classes and hands on approach to educating all students for success in college, career and community service, we strive for instructional excellence in all academics and extra-curricular activities and we succeed! This year alone we have served with success our surrounding counties including Mills, Hamilton, Comanche and Brown County. We are not just a school; we are a real family with parent involvement, dedicated teachers, coaches and staff devoted to training up a child in the way they should go.
