

Back to a Healthy Lifestyle

Compassionate Care

Don't let illness or injury hold you back from a healthy lifestyle. From colonoscopies to gallbladder removal and knee replacement, you and your family are in capable hands with Hamilton General Hospital's surgical specialists.

General Surgeon, Ryan Adams has extensive knowledge and training and treats a broad range of conditions that require surgery at Hamilton General Hospital.

Orthopedic Surgeon, Keith Ellison performs knee replacement surgeries, shoulder and knee scopes and rotator cuff repairs at Hamilton General Hospital. He is skilled in hand surgeries including carpal tunnel release, trigger finger release, fracture care and surgeries.

Reach out to your primary care physician for a referral.
