

Future First Graders

Kindergarten is an exciting year for many students. They get to ride the big yellow school bus. They make all sorts of art projects and they begin to read and write things that are understandable. These young students learn so many things in their first year of school. They leave kindergarten feeling a little bigger than when they started, and they have learned there is a great big world out there for them to discover.

We asked our Kindergarten a series of questions regarding their future plans and favorite parts of being in school. They had some great answers. Congratulations to all our 2021 kindergarten graduates. May you go far in life.

Students were asked the following questions:

- What do I want to be when I grow up and why?
- If you could have a SUPER POWER for a day, what would it be and why?
- What was your favorite part about school?
- Are you excited about first grade, and why?
