

Pella Windows and Doors

is a world leader and manufacturer of quality products and a recognized leader in innovation.

Pella Windows and Doors is known to meet or exceed federal standards for energy efficiency. According to Allison Lanham, Owensboro Pella representative, “As energy cost continue to increase, using energy efficient products is of paramount concern, especially if you will be staying in the home for an extended period of time.” “All the more reason to use products that meet to exceed minimum standards,” she said.

When purchasing new or replacement windows, another feature to consider are current trends; such as dark exterior colors. “One of Pella’s recent improvements includes a fade resistant upgrade to exterior clad colors, specifically designed for the darker colors,” stated Lanham. “Another feature is our limited lifetime warranty protecting against seal failure in the thermal pane glass, and advanced protec-

tion on the interior wood; against the effects of moisture penetration, decay, stains from mold and mildew as well as termite damage.”

Lanham also notes; warranties are only as good as the company you are buying from. That being said, we have our own service department in Owensboro with factory-trained technicians to respond in a timely manner.

In addition to service, the experienced staff at Pella of Owensboro strides to stay abreast of current trends and new building code requirements, which helps provide you with important information so you can make a more informed buying decision.

When planning your next home project, please consider stopping in to visit Pella of Owensboro’s showroom, located at 2800 Yale Place. Pella is truly viewed to be the best.
