

Starting out Home Inspired was a small, locally owned dream-come-true for Kristi Coomes-Boyens, and her team. Striving to provide the community with reasonably priced furniture of good quality and high-end design, is still at the core of this home furnishings business.

With a relaxed, welcoming style, we offer furniture made for living. From slip covered sofas to reclaimed wood coffee tables our store is stocked with pieces that will work in any home.

Home Inspired opened its doors in 2005 in Owensboro and has since opened an additional location in Louisville, KY. We offer a wide array of furniture from designers like Rowe, Universal, Bramble, and Furniture Classics. We enjoy working directly with local interior designers to help them find the perfect piece for any project.
