

Appraisals to Protect Your Inheritance

by Linda Dillon

Lance & Company Jewelers has been in the professional jewelry business for over 40 years, and a part of the Owensboro community for over 10 years. The company prides itself in the services they provide their customers, which include: design, repairs, cleanings, eyeglass repair, watch repair and professional appraisals.

Lance Embry's expertise and education from over 40 years experience is providing jewelry appraisals in the strictest of confidence. "Appraisals are wonderful for insurance claims and estate planning purposes," said Lance. When people do their estate planning, if serious jewelry is involved, I recommend they get an appraisal and attach it to the will.

Lance & Co. appraisals provide a description and professional photograph of each piece, along with its value, which you can then provide to your Estate Planner and also provide to our insurance company (to include on your homeowner or renters insurance). "It gives you peace of mind

knowing that your benefactors will be provided detailed descriptions and values for all of your jewelry pieces," Lance said. It will also prevent any misunderstandings when the will is read.

"Your insurance company usually uses appraisal values for five years. We always keep these appraisals on file for our customer's needs in the future, and can update values or owner information at any time," said Lance.

For more information about jewelry appraisals, Lance & Co. is located in Wesleyan Park Plaza, 2730 Frederica Street in Owensboro Kentucky, where all transactions are done in the strictest of confidence.
