

The Year In Review: 2020

C.A. Jones offers 25-plus years of home-building experience

C.A. Jones Inc. has been building homes in the Illinois/St. Louis Metro East for more than 25 years. Founder Chris Jones started the company with the pursuit to bring beautiful, energy efficient homes to local families. C.A. Jones offers many styles of floor plans with different home features from which to choose. Homes can be found in some of the best communities in Metro East, the company said. Prices include lot tap fees and permit fees, making new construction build as stress free and easy as possible, Jones said. While home designs and construction methods have evolved and advanced over the years, the company says it has maintained high standards for integrity

in every relationship — with its partners, team members, and tradespeople. “We build exceptional homes on the foundation of these quality relationships. Each one reflects our perspective that we build homes we want to live in. We apply innovation, craftsmanship, and attention to detail that provides an energy efficient, and comfortable home,” the company says. “We build in multiple locations that provide easy access to excellent school districts along with the amenities you need and want. Our Easy Buy program allows you to build your new home without having to put down the traditional 20 percent down needed with most construction loans,” the company said. All C.A. Jones homes include a 10-year builder’s limited structural warranty, lifetime waterproof warranty and are HERS Rated for efficiency.
