

# Local students continue to excel at Jones College

— From Staff Reports —

Greene County has a long legacy of sending students to Jones College that not only earn their degrees, but excel and leave lasting impressions on the Ellisville based school. The Class of 2022 added to that legacy.

While the official list of all graduates from the college's spring Commencement were not available for this report multiple local graduates were among the group.

What is known for certain is that Greene County was well represented among the 28 Associate Degree Nursing graduates who earned their pins at a ceremony last on the campus of

Jones College. During their pinning ceremony last week on the Jones Campus, the group of 28 new nurses took part in the nursing school tradition of the Lighting of the Lamp, which demonstrates the passing on of knowledge from nursing faculty to graduates.

Greene County residents (L-R) Jenna Hillman, Anna McDonald, Quin Erkhart and Petal resident Lauryn Wheat are shown during the Jones College Nursing Program's Pinning and Graduation Ceremony last week on campus in Ellisville.
