

# Future First Graders

Kindergarten is an exciting year for many students. They get to ride the big yellow school bus. They make all sorts of art projects and they begin to read and write things that are understandable. These young students learn so many things in their first year of school. They leave kindergarten feeling a little bigger than when they started, and they have learned there is a great big world out there for them to discover.

We asked our Kindergarten a series of questions regarding their future plans and favorite parts of being in school. They had some great answers. Congratulations to all our 2022 kindergarten graduates. May you go far in life.

Students were asked the following questions:

It is one of the great honors of my life to represent my friends & neighbors in our State Capitol. I pledge to continue to work with federal, state and local officials (like Town Clerk Rex Garretson and the mayor and aldermen of the Town of Leakesville) to address current issues and build more opportunities for all our residents.
