

# 2022 Green County Fair & Horse Show

American Legion Park was a flurry of activity until late hours all week during the Green County Fair.

The thrills of the Tsunami was a fair favorite.

Kids of all ages enjoyed the rides at the Green County Fair. Some even hammed it up for the camera.

Lots of motorsports took place last week at the Green County Fair. Motocross just happened to be in the carnival, not the arena.

Who knew riding a dinosaur could be so much fun? This little guy couldn't contain his smile Friday night at the Green County Fair.
