

Water safety from page six

inflatable life jackets, allowing mobility and flexibility for boating, fishing, paddling or hunting, and they are much cooler in the warmer weather.

Statistics show boaters who wear life jackets and take boater safety courses are most likely to stay safe on Wisconsin waters. Always follow the basic safety tips below and enjoy Wisconsin's great lakes and rivers with family and friends.

Water safety tips

- Sign up now to take an online boater education course.
- Always wear a properly fitted life jacket that has a snug fit and is fastened when you're on or near the water. Life jackets will keep you on top of the water if you walk off an unexpected drop-off, or a wave or current overpowers you or you fall out of a boat or off a paddleboard.
- Enjoy the waters sober and know your limits. Alcohol blurs a person's

judgment, reaction time and abilities.

- River shorelines and sandbars pose unseen dangers. Higher, fast-moving water can tax an individual's boating, paddling and swimming skills.

- Keep an eye on the weather and let someone know where you are going.

- Consider wind conditions when venturing out on a small watercraft, canoe, kayak or paddleboard.

- Be ready for the unexpected and always wear your life jacket.
