ANONYMOUS CALL REJECTION - \$1.50 per month. Refuse calls from those who have blocked their number. *77 to activate, *87 to cancel.

By dialing a simple code, you can program your phone to refuse calls from callers which have blocked their number. (Note: Anonymous Call Rejection is only available to customers who subscribe to Calling Number Delivery).

CALL FORWARDING - \$1.00 per month

Call Forwarding lets you transfer your incoming calls to another number. It's great for the business person who wants to catch after-hours calls at home, or for anyone who doesn't want to miss an important call.

To forward your calls...

- Lift the handset and listen for the dial tone.
- Dial *72 (on rotary dial phones, dial 1172).
- Again, listen for the dial tone.
- Now, dial the number where you want your calls to be forwarded. (You can use Speed Calling codes if you have this feature.)
- You know your Call Forwarding feature is in effect when someone answers at the forwarding number.

If there is no answer at the forwarding number, or if the line is busy, hang up and repeat the steps above. If you do so within two minutes, you'll hear two "beeps," meaning your Call Forwarding feature is now working.

Once you've activated Call Forwarding, your phone will make one short ring each time a call is forwarded. You can still make outgoing calls from this phone.

If you wish to change the number to which your calls are being transferred, just deactivate Call Forwarding (see below) then follow the steps above to forward your calls to the new number.

To deactivate Call Forwarding...

- Lift the handset and listen for the dial tone.

- Dial *73 (on rotary dial phones, dial 1173).
- Listen for two beeps. The Call Forwarding feature is no longer in effect, and calls will ring on your phone.
