

There Are Three Basic Kinds Of Long Distance Calls

Customer Dialed Station-to-Station Call

is the least expensive type of call. If the customer dials the call direct without OPERATOR'S assistance, the customer is charged at the lowest rate.

Operator-Assisted Station-to-Station Call

requires OPERATOR assistance for completion. The customer will talk with anyone who answers, but needs an OPERATOR'S aid to reach the number or for other reasons. Examples of such calls are coin, collect and calling card calls, calls billed to third number.

Person-to-Person Call

the most expensive type of calls for those occasions when the customer wishes to speak directly to a particular person, telephone, department or office reached through a customer's switchboard (PBX)

Types Of Calls

Station-to-Station

Call station-to-station if you wish to talk with anyone who answers. Rates are lower than person-to-person. Charging begins when the called telephone is answered.

Person-to-Person

Call person-to-person when you wish to talk to a particular person or extension number. Tell the OPERATOR you wish to make a "person-to-person" call. Rates are higher than station-to-station and also apply when you talk to an alternate person or extension. Charging starts when conversation begins.

Collect

You can call "collect" if the person or firm you are calling agrees to pay the charge. If you want to make a "collect" call, please be sure to tell the OPERATOR when you place the call.

Coin Calls

From coin phones, see the instruction card on or near the phone, or dial OPERATOR.

Calling Card

Customers who have Calling Cards may place calls and charge them to their calling card numbers. These calls may require OPERATOR assistance to record the calling card number and may be station-to-station or person-to-person. Customers may apply for a calling card by calling their local business office.

Bill To Third Party

Customers may place calls and transfer the charge to another telephone. This service requires OPERATOR assistance. The call may be either station-to-station or person-to-person.

Wide Area Telecommunications Service (Inward WATS)

Station-to-station long distance calls may be made, without charge to you, to those customers who have Wide Area Telecommunications Service. They offer this service to their customers calling from specific locations. Dial "1" plus area code "800", "866", "877", and "888" plus the special numbers of customers having this service.
