ATTACHMENTS TO TELEPHONES

In the interest of providing dependable, efficient and modern telephone service, the telephone company sets specifications for equipment which may be connected to its facilities. These specifications are required to insure that each part of the system is designed and maintained to work with every other part of the complex telephone network. Rules and regulations regarding the connection of customer

provided equipment to telephone company facilities are on file with the Minnesota Public Service Commission. Copies are available for review at the business office.

AUTOMATIC ANSWERING SET

Certain telephones are equipped with an automatic device, known as an automatic answering set, which answers the telephone mechanically or digitally. It then makes a recorded announcement. If your call is answered by an automated answering set, listen carefully for the announcement which will be self-explanatory. Some sets will also record a message from the caller.
