

Custom Calling Features - Cont.

- Easy to use - friendly voice prompts guide you in delivering and retrieving your voice mail messages.

Standard Features

- Personalized Greeting
- Create a personal greeting for callers who reach your voice mailbox. Voice mail plays your personal greeting before recording the caller's message.
- Time-Date Stamp
- Identifies the time and date each message was received in your voice mail.
- Prompt Override
- You can override voice prompts by choosing the required voice mail option at any time.
- PIN Security
- Personal Identification Numbers ensure security. Your voice mailbox cannot be accessed without the correct PIN. You can designate and change your PIN at any time.
- Message Waiting
- When you access your mailbox, a distinct stutter dial tone is played to indicate you have new messages. When you play or delete your new messages, the normal dial tone is restored.
- Multi-User Access
- If you have more than one voice mailbox, you can check all your messages by accessing the check-in number

7. Press 7 - Skip back three seconds.
8. Press 8 - Pause or continue message.
9. Press 9 - Skip forward three seconds.
10. Press * - Return to main menu.

TERMINATING CALL MANAGER (TELEMARKETER CALL SCREENING)

\$2.95 per month

The Telemarketer Call Screening service intercepts calls that are delivered as "unknown" or "out of the area" to the subscriber's line. The service plays a recording stating that the party they have dialed does not accept calls from telemarketers, and that the party wants their name and number to be added to the telemarketer's "Do Not Call" list.

Importantly, the announcement allows callers who are not telemarketers, but whose calling number information is not provided, to "dial 1 or stay on the line" to complete the call.

ORIGINATING CALL MANAGEMENT

\$3.50 per month

Originating Call Management service provides you with customized originating call control from your telephone. Whether it's controlling outbound local calls or long distance, you have the flexibility to select which numbers you want to always block or always allow.

This service provides a Personal Identification Number (PIN) override so that normally blocked calls may be completed on a per call basis by those who know the PIN. And, this PIN can be changed at any time.

Changes to the list are free of charge for the first 30 days. Service order and central office charges apply after that.
