

Pickwick Southside

Pickwick Southside School is unlike any other school in the Hardin County School District, with grades spanning from Pre-K through eighth. We are located at the southern part of Hardin County, nearing the McNairy County line, as well as the Mississippi State line. Our total enrollment is approximately 205 students. This allows for smaller class numbers, which allows our school to be more of a family-like environment. The 2022-2023 school marks the 72nd year of Pickwick Southside being a staple in the Pickwick/Counce/Shiloh area.

The 2022-2023 school year brings several exciting changes to our school. We are excited to welcome back Natalie Aven and our Pre-K program. Dwanna Johnson and Amanda Mullins will be assisting in the Pre-K program. We know the importance of early education to help develop a drive to learn at an early age. We are so thankful to have this program back at our school.

We also welcomed another vital program into our school called the School Based Behavioral Health Liaison (SBBHL) Program. SBBHL program, a service from Quinco Mental Health Center, works with students, families and teachers to reduce the impact of individual stressors by helping students identify positive coping skills and stress management. In addition, the program also works with teachers and school administrators to develop a trauma-informed environment that fosters resiliency. We are excited to welcome this program and our Liaison, Mr. Stanford McCorkle, to Pickwick Southside.

For the 2022-2023 school year, our school-wide theme is "Changing the World, One Child at a Time". The bulletin board near the front office and cafeteria displays our school staff at this time, however throughout the school year each class will
