Mustang Public Library, located at 1201 North Mustang Road in Mustang, is popular for its book checkout, both in person and electronically, programs for all ages, space to study and work, and for the use of its computers, printers, fax machine, and copier.

However, the library offers so much more than that, including fun for kids and teenagers.

According to the City of Mustang website, cityofmustang.org, "The Mustang Public Library started as a Bicentennial Project by the Girl Scouts of Mustang under the leadership of Marie Good. The Library has grown in its ability to serve the community due to funding from the City of Mustang, allowing for quality staff to be employed, financial assistance from the Friends of the Library, funding from the Canadian County Educational Facilities Authority, leadership from the Library Board of Trustees and support from the community at large.

"As Mustang grows, it is the goal of the Library Board of Trustees and Library staff to: Meet the demands for materials, services and classes; Provide professional, friendly customer service; Support life-long learning; Promote literacy for all ages; Continue our proactive role as an essential component of the community; and Provide cultural, educational and recreational classes and materials."

Mustang Library Director Julie Slupe shared several projects that

"As Mustang grows, it is the goal of the Library Board of Trustees and Library staff to: Meet the demands for materials, services and classes; Provide professional, friendly customer service; Support life-long learning."

have been implemented in the last year, or are in the process of becoming a reality.

"We are offering adults 25 years old and older to earn a free high school diploma through an online program," Slupe said via e-mail Wednesday, September 13. "We offer free online educational video courses in Web Design, Business Operations, Cyber Security, Data Science, Development, IT Operations, Language Learning, Leadership & Management, Marketing, and Personal Development (drawing, photography, personal finance, piano, guitar).

"We offer Brainfuse, a website based tutoring for adult learners, as well as, K-12. Along with tutor help in the traditional school courses, there are practice tests for US Citizenship, Nursing
