

# If The Sign Is Right, Lets Get Digging

By H D Overholt  
C-T Reporter

The gardening urge has been enveloping lots of minds as daylight lengthens within our daily lives. Digging in the soil and transplanting new seedlings within the garden are of utmost importance for fresh fruits and vegetables during the summertime. Many old-timers are ready to remind the youngsters of planting by the signs and has an almanac for reference of the moon phases handy.
