## Charities whose missions support veterans, active military & their families

The support Americans have for their armed forces is evident in how much they donate each year to charities with military-related missions. According to Charity Navigator, Americans donate more than \$2.5 billion annually to charities with missions dedicated to the military.

Individuals who want to donate to a charitable organization with a military-related mission may not know where to start, and that can be daunting given the number of organizations that fit that criteria. Charity Navigator indicates there are more than 40,000 American charities with military-related missions, which underscores how difficult it can be to find one to support. Thankfully, Charity Navigator, which has provided donors with free access to data, tools and resources to guide their philanthropic decision-making since 2001, has curated a list of highly rated organizations that provide a variety of services to military members and their families. The following is a brief run-down of that list that can serve as a solid foundation for prospective donors. The full list can be found at [charitynavigator.org](http://charitynavigator.org).
