COMMUNITY PAGES

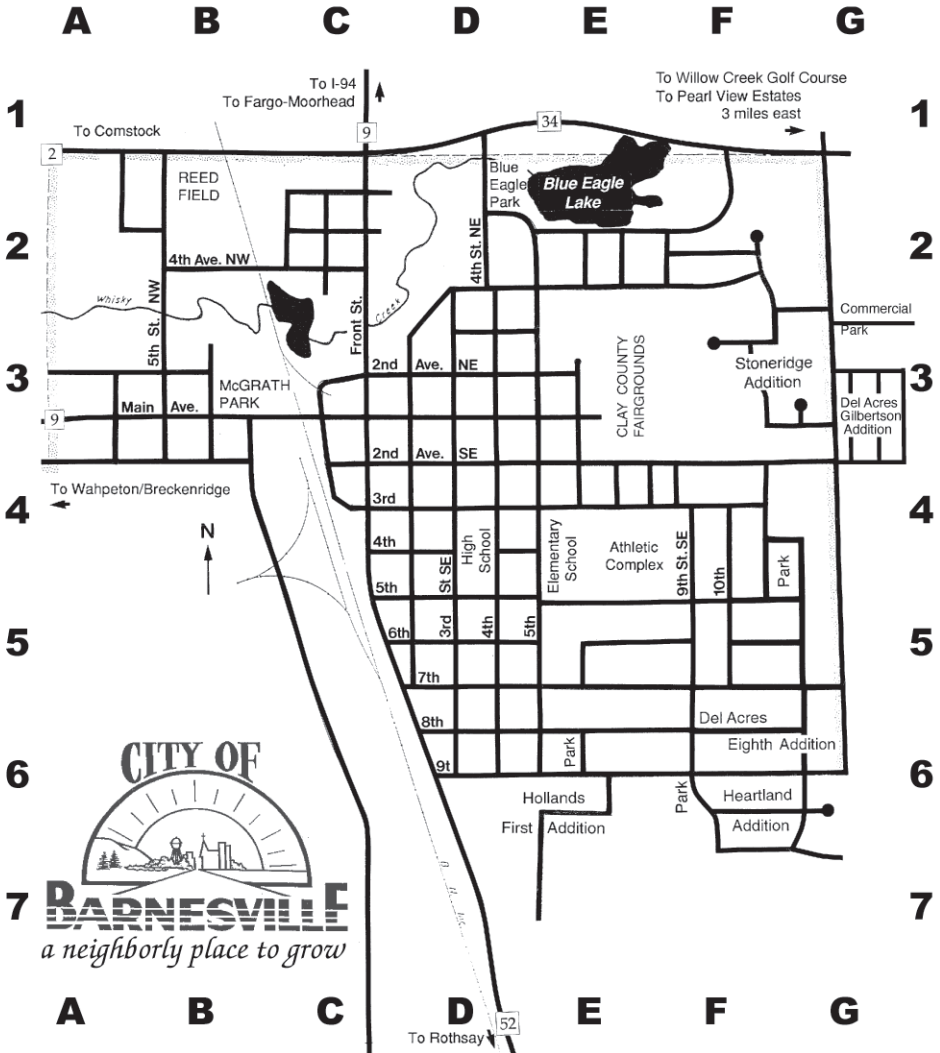

Barnesville, a progressive community offering large town amenities in a small town atmosphere, is an excellent choice either to raise a family or pursue a business. Barnesville's central location between Fargo-Moorhead, Wahpeton-Breckenridge and Fergus Falls is serviced not only by Interstate 94, but two state highways.

The City of Barnesville is proud to provide electric, cable television and phone service, in addition to high speed internet connections via fiber. A city owned Commercial Park offers many opportunities for new businesses.

Attractive incentive programs are available for new home construction, as well as business development.
