

Outstanding Kids In Their Potato Field

The Potato Scramble was originally started to help kids better understand how potatoes grow and are harvested.

The event is held in a potato field on the edge of Barnesville and begins just after the regular Potato Picking Contest.

Ages 4 – 16 are given the opportunity to hunt for potatoes. In addition to taking

home the potatoes they pick, there are specially marked potatoes that earn the pint size pickers a special prize.

Pre-registration is not required for the Scramble. A total of \$250 in prize money will be awarded.

Contact the Spudline at (800) 525-4901 if there are any questions.

SPUD FACT

Over the centuries, botanists have created many varieties of potatoes. Some of the best known are Sebago (common potato), Pontiac (very popular because of his thin red skin), Desiree, Pink Fir Apple, Kipfler, Pink Eye (or Tasmanian Pink Eye), Russet Burbank, Spunta and Nicola.
