*If You Ate Today.....
Thank A Farmer*

Providing the world with food is not an easy task. The Villa Grove State Bank understands that, so we try to take the work out of your farm loan needs.

We have been making loans to area farmers for over 100 years and understand the challenges the farmer faces. Weather, markets and unexpected expenses can be stressful enough, let the professionals at Villa Grove State Bank help you with the financial challenges.

For information on financing new equipment, farm operations, or farm land, contact Scott Beccue or Brad Beccue.

Thank you for feeding the world.

Serving the agricultural producers of central Illinois with grain drying & storage, market alternatives, crop insurance & grain services.

Would you like to have an extra \$28,000?

Some advisors believe that farmers involved in a marketing program do a better job of risk management and market planning. The end result may be a 10% improvement in the average selling price of their crops. For the average farmer, that could mean increased revenue of \$28,000. That's where our Marketing Line of Credit comes into play.

At First National Bank, we have been making loans to area farmers for generations. We can help with your loans for operations, equipment, livestock, real estate or marketing.

We have years of experience in making ag loans and want to be your lender – call 217-543-3850 or toll free at 1-888-543-3850.
