What are you most proud of during your time at TCHS, and why?

I am most proud of my class for battling through high school as well as the pandemic. It was rough and crazy for sure but we battled and made it through half of our high school career not being "normal". From wearing hot masks during the summer and during sports and other school activities if we got to have them. We battled and we got to end our last high school chapter on a "normal" note and making the most out of everything that we got.

What is your favorite memory of TCHS?

My favorite memory would have to be Junior Year softball season. Where I threw the girl out at the home plate to Makenna Fiscus for us to win the Regional Title. That will forever be a core memory for me and celebrating with my teammates and loved ones is a memory I could never forget.

Who was the most in-

Isabelle Ryleigh Wilcox

fluential person throughout your high school career, and why?

The most influential people through my high school career were probably my parents. Not only are they the best parents anyone could ever ask for. They let me be a kid, helped me with homework, drama, sports and all the stuff high schoolers go through. Most importantly, they taught me many valuable lessons during high school. Thank you, mom and dad, for being amazing parents.

If you could, what advice would you give yourself on your first day at TCHS?

I would say, have fun and enjoy every moment, whether it is good, bad or in between. Along this crazy ride, you will figure out who your true friends are. Stick by them and don't ever let them go, but know when to let go of the friends that weren't really ever your friends from the start.

What is a favorite quote, or one that best describes you?

"Nothing is impossible. It has the word possible right in it." Audrey Hepburn.

It describes me because you have to have a different mindset for every day but it can always be a positive one. You just have to believe it is possible because anything you put your mind to is possible.
