Did You Know?

Though it's typically only 28 days, or 29 this year (Leap Year), February still provides many opportunities to celebrate. February is Black History Month in both the United States and Canada, and has recently been observed in Ireland and the United Kingdom as well. February also features Mardi Gras and "Fat Tuesday," the final, and often festive, feast day before the Christian season of Lent begins on Ash Wednesday. American history buffs also have plenty of reasons to celebrate in February, as the month marks the birthdays of Abraham Lincoln (February 12), Susan B. Anthony (February 15) and George Washington (February 22), among others.
