

Every smartphone on Earth contains gold - tiny quantities per device, but over 50 tons globally every year go into the phones we use everyday thanks to gold's unmatched conductivity.

Our gold isn't just mined for beauty. It's mined for the future.

AJ VS NORTHWESTERN GIRLS SOCCER

AJ #2 Creighan Sullivan makes contact with the ball from a corner kick to score for The Lady Vols.....AJ GIRLS WIN 2-0 (Gwynn Leaird)

Kershaw County Council to Honor Memory of Lugoff-Elgin Students

Kershaw County Council will recognize the lives of Samantha Gladden and Maryann Large, two Lugoff-Elgin High School students whose memories are being honored by the Lugoff-Elgin High School Class of 2026.

At the 3/10/2026 evening's County Council meeting, the Council presented a proclamation recognizing Samantha and Maryann, as well as the students who worked to establish memorial benches as a lasting tribute. Samantha and Maryann, who lost their lives to suicide, would have graduated with the Class of 2026.

The actual memorial benches were present at the meeting.

These benches are modeled after the historic Charleston Battery benches, featuring ironwork cast from original molds and cypress wood slats with memorial plaques crafted locally in Lugoff.
