

# What have we been doing over the last 59 years?

Simply put *“We Care for Those You Care for”*

White River Health Care has a long and enviable history. Its reputation in the Calico Rock community, among its residents, and throughout its staff is second to none. Our new facility is just as functional as it is beautiful, inside and out.

We are located on Highway 56 in the middle of Calico Rock across from the Methodist Church. We encourage you to come and visit our home or call us about our nursing home at 870-297-3719.

You can never have  
*too much happy*

In 1967, Tip and Retha Wiseman had a vision for their community: a nursing home that provided a comfortable environment for its residents as well as more jobs within the community. So, atop the scenic bluffs of the White River overlooking the White River Valley, they built the original **White River Health Care**. At that time it was the second nursing home in the county, and in short order it gained a reputation for excellent resident care.

We have maintained family ownership of the White River Health Care since its inception. Only one other of the nearly 300 nursing homes in Arkansas has achieved such a feat, which is no mean accomplishment in an industry dominated by corporate giants that have almost completely replaced family-owned businesses.

Over the years, "nursing home care" has evolved into "Resident Centered Care" with our residents deciding, as they would within their own home, just how they want to live. We strive to make every day, for each of our residents, a great one.
