

1

Pictured left, this page: Glenn Lange's entomology collections and (right) Brad Wendholt with one of his 4-H Fair submissions. Both Glenn and his nephew, Brad, also exhibited at the State Fair.

Left page: Henry Vollmer caught the family bug at a young age and continues the tradition of excellence started by his great-uncle. Henry was working on his displays recently and was meticulously pinning a bug per 4-H regulations.
