

McCubbins is student leader at Lindsey Wilson University

A Green County resident has a leadership position this school year at Lindsey Wilson University. Bryar McCubbins '28 of Summersville, Kentucky, is a senator at large in the Lindsey Wilson Student Government Association. McCubbins is a political science major. The Lindsey Wilson Student Government Association is responsible for coordinating student clubs and organizations, student development, and student leadership. In addition to serving as a voice for student concerns and needs, the Lindsey Wilson Student Government Association assists with planning, promoting and organizing student

LINDSEY WILSON UNIVERSITY

Lindsey Wilson University supporters in Kentucky can show off their Blue Raider pride and the university's new look when they hit the road in 2026. The Kentucky Transportation Cabinet has released a new edition of the Lindsey Wilson license plate, which features the university's new logo and four words from its mission statement, "every student, every day." The initial cost of the license plate is \$44 and the renewal cost is \$31; \$10 from each plate goes to the Lindsey Wilson general scholarship fund. The license plate can also be personalized with up to six

characters for an additional \$25 annual fee. "This is such a great way for Lindsey Wilson's alumni and friends in Kentucky to show their Blue Raider pride wherever they go," said Director of Alumni Relations Allison Cross '09. "Not only do you get to spread the Lindsey Wilson message throughout

the commonwealth and beyond, but you also help Lindsey Wilson students by supporting scholarships." Lindsey Wilson unveiled a new seal and logo on July 1 to celebrate the school's transition from col-

lege to university. The new logo and seal were created by Bowstring, a Philadelphia-based global creative content studio. To get a Lindsey Wilson license plate, visit your county clerk's office or go to drive.ky.gov.

Weather

From page 1A

Never use cruise control on slippery roads. If a vehicle hydroplanes or skids, motorists will lose the ability to regain some traction simply by lifting off the accelerator. It will be harder to recover from the loss of traction if cruise control is active.

Turn against the skid. If a car begins to skid, continue to steer in the direction you want the car to go.

To prepare a

vehicle for winter driving, AAA recommends the following tips:

Have the vehicle's battery tested. Last winter, AAA East Central contractors responded to more than 66,000 battery calls, the number one call received by the Club.

Replace worn windshield-wiper blades. Purchase one-piece, beam-type or rubber-clad "winter" blades to fight snow

and ice buildup. Use cold-weather windshield washer solvent and carry an ice scraper.

Inspect tires. Make sure tires have adequate tread depth – at least 4/32" – as worn tires can affect a motorist's ability to stop in slick conditions. An easy way to check for wear is by inserting a quarter into the tread groove. If the top of Washington's head is exposed, the tread depth is less than 4/32"

and it's time to replace tires. Also, check that the vehicle has a spare tire and keep it properly inflated. In harsh winter climates, a set of snow tires may be a wise investment.

Carry an emergency kit equipped for winter weather. The kit should include sand or cat litter, a small shovel, flashlight, an ice scraper or snow brush, booster cables, a blanket, gloves or mittens and flares or reflective triangles.
