The Spirit of Endurance

July serves as the approximate midpoint of the year, making it a natural time to assess the undertakings we've begun and the goals we still hope to reach. It is easy to feel discouraged when we realize how much work is left to do, or when the progress on a specific project feels stalled. However, there is a quiet solace to be found in reflecting on the process rather than just the result. In the life of faith, we aren't just measured by the finish line, but by the steady persistence we show when the path gets long. Endurance is more than just survival; it is a way of trusting that God is present in our lives, strengthening our character precisely when we feel like we are just treading water.
