

CHS seniors end school year with elementary school walk-throughs

All photos by Tammie Stephens

The Clinton High School Class of 2026 visited their former elementary schools for a walk-through on Friday, May 8. They started the morning with their senior parade around the CHS campus, then picked up their caps and gowns and boarded school buses. Their first stop was Clinton Park Elementary, followed by Northside and Eastside Elementary. This annual tradition allows graduating seniors to share their journey with their former teachers and current elementary students, designed to serve as a full-circle moment for the seniors and also to inspire the younger students to get excited about their own journey and eventual graduation. The hallways of each school were lined with teachers, administrators, students and parents cheering and holding signs as the Clinton High School Class of 2026 wove through the hallways they once called home when they were the littlest Arrows.
