

Life is a series of milestones, some inconsequential, other milestones are life-changing. Put into that category births, deaths, the first day of school, a first job, a wedding and of course, graduation.

The District 146 Class of 2026 will graduate and become a part of history. Time will only tell what the future holds for these seniors. In the meantime, take a moment and read the biographies of our seniors in this magazine, looking back at their achievements and looking forward with their future plans.

A special thanks goes out to:

**MATT ASKEGAARD, SHELLY KRUEGER,
MISSY SOSSA & BHS YEARBOOK STAFF**

These individuals were kind enough to provide pictures, student bios and class information. Without their help and time, the book would have been a lot more difficult to put together.

Remember When?
