

Did You
KNOW?

While home buyers typically take their time to examine each room and space inside and outside a home before making an offer, the real estate experts at Trulia note that two rooms in particular seem to merit the closest inspection among prospective buyers. Kitchens and the bathroom in an owner's suite can dramatically increase the value of a home. Trulia recommends that homeowners consider their neighborhood and identify their target buyers prior to beginning a kitchen or owner's suite renovation, as such variables can provide direction and inspiration when refurbishing these widely valued areas in a home.
