OzSBI Funding Opportunity BRAND BUILDING FUNDING FOR BUSINESS

Many small businesses in our seven-county service area find it challenging to budget for marketing and website development. Both are essential for building brand recognition and increasing customer awareness, especially in the startup phase.

In January 2025, OzSBI received a small grant from Rural LISC through Mastercard Strive to support small businesses in developing a strong digital brand identity through website development and radio advertising.

OzSBI has partnered with several area experts in brand building and business marketing to create three funding opportunities for clients:

- **Brand Building Discount:** Approved businesses will receive expert brand guidance and a 12-month Brand Building campaign at a reduced monthly rate.
- **Brand Building Scholarship:** Twelve need-based scholarships are available to area businesses for a \$65 monthly bill credit on an already-discounted 12-month Brand Building radio campaign with Ozark Marketing.
- **Website Development Digital Impact Scholarship:** OzSBI is proud to offer a \$1,000 scholarship for website development to twelve (12) qualified small business owners. We have partnered with two local website developers who specialize in small business websites, providing high-quality design, competitive pricing, and strong support services.
